The Mission of the Boston School Forest

Is to provide the youth of Stevens Point Area Public Schools educational opportunities that foster personal growth as well as awareness, knowledge and appreciation of the natural world leading to sound stewardship of the earth.

The Boston School Forest is part of the Stevens Point Public School District and serve every student in 4K-10th grade. Each year students from the 9 elementary schools, 2 junior highs, 1 senior high, 1 charter school, and 1 alternative school participate in environmental education fieldtrips. The visit occurs in a designated season and engages students in lessons related to age-appropriate themes that reinforce the district curriculum and are aligned with state standards.
